COSMETIC CONSULTATION

Design your smile before anything is done

A cosmetic consultation is a relaxed, unhurried conversation about what you would like to change about your smile, followed by a careful assessment and a clear, honest plan. There is no pressure, and no treatment on the day.

YOUR COSMETIC JOURNEY

Who it is for

- Anyone unhappy with the colour, shape, size or position of their teeth
- Chipped, worn, uneven or gappy teeth
- Old bonding, veneers or crowns that look tired
- Patients deciding between whitening, bonding, veneers or aligners
- Anyone planning a full smile makeover

YOUR VISIT

What happens at your consultation

01 **Your goals**
We start by listening. What do you like about your smile, what would you change, and how natural would you like it to look?

02 **Health check**
Teeth and gums must be healthy before cosmetic work. Any decay or gum problems are treated first.

03 **Photographs and 3D scan**
Clinical photographs and a digital 3D scan record your smile in detail.

04 **Digital Smile Design**
Dr Kal designs your new smile on screen around your face, lips and features, so you can see a preview.

05 **Your options**
We explain each option that could help, with the benefits, limits and fees of each.

06 **Written plan**
You take home a written plan with every item and fee. Take your time, there is no pressure to decide.

YOUR OPTIONS

Treatments we may discuss

TREATMENT	BEST FOR
Teeth whitening	Brightening the natural shade. Often the first step.
Composite bonding	Chips, small gaps and uneven edges, in one visit, usually with no drilling.
Porcelain veneers	Larger changes in colour, shape and size, with long lasting results.
Clear aligners	Straightening crowded, gappy or rotated teeth discreetly.
ICON white spot treatment	Softening white marks without drilling.
Crowns and implants	Replacing heavily damaged or missing teeth.

Our approach. We often combine treatments in a sequence: align, then whiten, then bond. This usually means less tooth is touched and the result looks more natural.

Trial smile

For bonding and veneers, a temporary version of your design can be placed over your own teeth. You see it in the mirror and in photographs, and we adjust it until it feels right, before any treatment starts.

PREPARING

Before your consultation

- Think about what you would like to change, and what you would like to keep.
- Bring photographs of smiles you like, or old photographs of your own smile.
- Tell us about any whitening, bonding or orthodontics you have had before.
- Allow around an hour so nothing is rushed.

WHAT HAPPENS NEXT

FREQUENTLY ASKED QUESTIONS

Your questions answered

Will I be pressured into treatment?

No. You leave with a written plan and time to think. Many patients come back for a second conversation before deciding.

Can I see what my smile will look like?

Yes. Digital Smile Design shows a preview on screen, and a trial smile lets you see it on your own teeth. The preview is a planning guide, not a promise of the exact result.

Bonding or veneers?

Bonding is lower cost and less invasive, and suits smaller changes. Porcelain suits larger changes and lasts longer, but costs more and needs extra visits. Bonding first does not rule out porcelain later.

Do I need whitening first?

Usually yes. Whitening lifts your natural shade so bonding or veneers can be matched to a brighter base.

Is it all done in one day?

Bonding can often be completed in one visit. Porcelain veneers need laboratory work and usually two to three visits.

Can I bring someone with me?

Of course. Many patients bring a partner or friend for a second opinion.

Will you tell me if I do not need treatment?

Yes. Sometimes whitening alone, or no treatment, is the honest answer.
