LUSSO DENTAL

Porcelain Veneers

Treatment Guide

LUSSO DENTAL · WEST BYFLEET

54 Station Approach, West Byfleet, Surrey KT14 6NE · lusso.dental

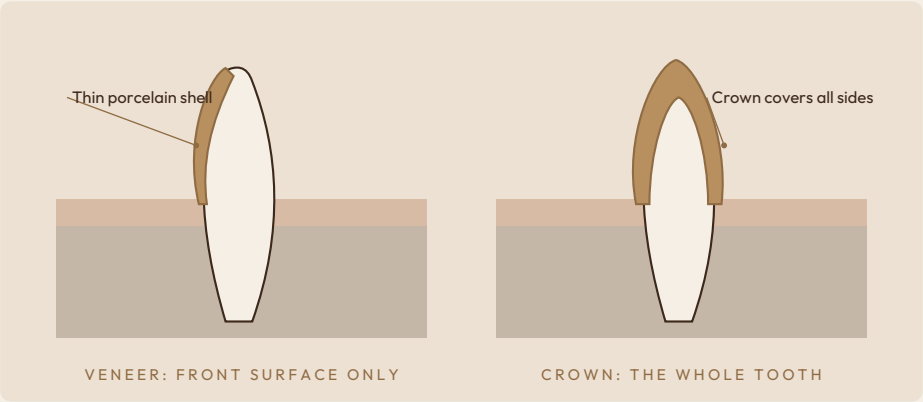

PORCELAIN VENEERS

Handmade ceramic, designed for your face

Porcelain veneers are thin, handmade ceramic shells, similar in thickness to a contact lens, bonded to the front of your teeth. They change colour, shape, size and proportion, and reflect light like natural enamel.

WHITENING, PORCELAIN VENEERS AND A NEW BRIDGE. DR KAL'S PATIENT. RESULTS VARY

A VENEER COVERS THE FRONT. A CROWN COVERS THE WHOLE TOOTH

Porcelain is stronger and more stain resistant than composite, keeps its polish for years and typically lasts ten to twenty years with good care. Each veneer is handmade by a skilled

ceramist to Dr Kal's design and shade record.

Veneers are ideal for

- Deep discolouration that whitening cannot lift
- Small, worn or uneven front teeth
- Gaps or shape differences too large for bonding
- Old composite, crowns or veneers that look tired
- A complete, long lasting smile makeover

COMPARING YOUR OPTIONS

Porcelain or composite?

	PORCELAIN VENEERS	COMPOSITE VENEERS
Lifespan	Commonly 10 to 20 years	Typically 3 to 5 years
Staining	Porcelain does not stain	Can stain over time
Visits	Two to three	Usually one
Tooth preparation	Minimal, sometimes none	Usually none
Guide fee	£1,050 per tooth	£495 per tooth

PORCELAIN VENEERS. DR KAL'S PATIENT, SHARED WITH CONSENT

YOUR TREATMENT JOURNEY

How it works

01 **Assessment and design**
Examination, photographs, 3D scan and Digital Smile Design. Whitening is usually done first.

02 **Trial smile**
A temporary mock up is placed so you can approve the shape and length before anything is prepared.

03 **Preparation**
Minimal, and often none. Digital impressions are taken and temporaries fitted.

04 **Laboratory**
Your ceramist handcrafts the veneers, usually within about two weeks.

05 **Fit**
Veneers are tried in, checked for shade and fit, then bonded. Your bite is checked and the veneers polished.

06 **Review and care**
A review visit, a night guard if you grind, and regular hygiene visits.

Benefits

- Natural, light reflecting finish
- Resists staining
- Long lasting
- Corrects colour, shape and size together

Things to consider

- Usually irreversible once enamel is shaped
- Higher cost than composite
- Some sensitivity for a few days
- A night guard may be needed

LOOKING AFTER YOUR VENEERS

Aftercare

- Brush twice daily and clean between your teeth every day, just as with natural teeth.
- Keep regular hygiene visits. The porcelain will not stain, but the edges can if plaque is left.
- Wear your night guard if you grind or clench.
- Avoid biting very hard objects such as ice, pens or nutshells.

BEFORE AND AFTER

More veneer cases

PORCELAIN VENEERS BY DR KAL. BEFORE (TOP) AND AFTER (BOTTOM). RESULTS VARY

LEFT: WORN EDGES REBUILT. RIGHT: GAPS CLOSED WITH VENEERS

PREPARING

Before your veneers

- Complete any whitening first so your veneers can be matched to your brightest natural shade.
- Approve your trial smile, and take photographs of it at home.
- Any gum or decay treatment is completed first.

WHAT TO EXPECT

Living with temporaries and new veneers

WHEN	WHAT TO EXPECT AND DO
With temporaries	Avoid sticky and very hard foods. Temporaries are held lightly and can come loose. Call us if they do.
Fit day	Gums may be a little tender. Teeth can feel sensitive to cold for a few days.
First 2 weeks	Your bite and speech settle. A review checks everything is comfortable.
Long term	Night guard if you grind, daily cleaning and hygiene visits every six months.

GUIDE FEES

What it costs

TREATMENT	GUIDE FEE
Porcelain veneer, per tooth	£1,050
Porcelain veneer smile makeover, per tooth	from £1,050
Digital Smile Design	£150
Professional whitening kit, gel and custom trays	£475

Guide prices. Your exact plan and fees are confirmed in writing at your consultation, and nothing starts until you have agreed to it.

FREQUENTLY ASKED QUESTIONS

Your questions answered

Does preparation hurt?

Usually not. Preparation is minimal and limited to the outer enamel, so anaesthetic is often not needed. For more complex cases, anaesthetic is offered to prevent sensitivity.

Are veneers permanent?

Where enamel has been shaped, the tooth will always need a covering, so this is a long term decision. The trial smile lets you preview the result first.

How many veneers will I need?

Most people wanting a broad, even smile choose six to ten upper teeth. Two or four may be enough for a specific concern.

Should I whiten first?

Most patients do. It lifts your natural shade so the veneers can be matched to brighter teeth and kept thinner.

Do veneers damage teeth?

They bond to enamel and need far less tooth removal than crowns. Healthy gums and good care protect the tooth underneath.

Can veneers fall off?

It is rare. Modern bonding is very strong, but very hard bites or grinding can loosen or chip a veneer.

Will my veneers look fake?

Not when they are designed for your face. We choose shape, translucency and texture to look natural.
