MAXILLOFACIAL SURGERY · REFERRAL ONLY

Specialist surgery of the mouth, jaws and face

Oral and maxillofacial surgeons are specialists trained in both dentistry and medicine. They treat conditions of the mouth, jaws, face and neck that need hospital based or more complex surgery.

The right specialist, at the right time, with everything they need.

Maxillofacial surgery is a referral service. We assess, image and refer, and coordinate your dental care around it.

At LUSSO	X-ray or CBCT	To a consultant	Hospital team	Ongoing care

HOW A MAXILLOFACIAL REFERRAL WORKS

Referral only. LUSSO Dental does not provide maxillofacial surgery in house. We carry out routine extractions, wisdom teeth and implant surgery ourselves, and refer more complex cases to a consultant maxillofacial team.

WHAT IT COVERS

When a referral may be needed

REASON	EXAMPLES
Complex wisdom teeth	Deeply buried teeth very close to the nerve, or where a general anaesthetic is needed.
Jaw cysts and lumps	Cysts or growths in the jaw, often found on X-ray.
Corrective jaw surgery	Orthognathic surgery for jaw size or position, with an orthodontist.
Jaw joint problems	Severe or long standing jaw joint disorders not helped by simpler care.
Facial injuries	Fractures of the jaw, cheekbone or eye socket.
Biopsies	Sampling a lump, patch or ulcer to confirm a diagnosis.
Salivary gland surgery	Stones or swellings in the salivary glands.
Major bone reconstruction	Large grafts before implants where bone has been lost.

Facial injuries are an emergency. If you have a head or face injury, cannot close your teeth together, have double vision or numbness after a blow, go straight to A&E.

THE REFERRAL PATHWAY

How we help

01 **Assessment**
We examine you, take the X-rays you need and, where helpful, a 3D CBCT scan.

02 **Discussion**
We explain why a specialist opinion is the right next step, and your options, including NHS and private pathways.

03 **Referral**
A detailed referral letter with your images and history goes to the maxillofacial team, copied to your GP where appropriate.

04 **Your surgery**
The specialist team assesses you, explains the procedure and carries out treatment.

05 **Back to us**
We continue your dental care afterwards and, where needed, replace teeth with implants, bridges or dentures.

PREPARING

Before hospital surgery

- Follow the hospital's instructions on eating, drinking and medicines carefully, especially before a general anaesthetic.
- Arrange someone to take you home and stay with you.
- Plan time off work and stock up on soft foods.

WHAT HAPPENS NEXT

After surgery

WHEN	WHAT TO EXPECT AND DO
First week	Follow the hospital's aftercare. Swelling and stiffness are common and settle with time.
2 to 6 weeks	Hospital review. Let us know if you need dental help in the meantime.
Afterwards	We see you back for check ups and any teeth replacement.

GUIDE FEES

Fees at LUSSO

TREATMENT	GUIDE FEE
Dental Wellness Assessment	£150
Panoramic radiograph (OPG)	£95
CBCT 3D scan	£250
Referral letter	Included

Guide prices. Your exact plan and fees are confirmed in writing at your consultation, and nothing starts until you have agreed to it.

Surgery is provided by the receiving hospital or specialist. NHS hospital referrals are free at the point of use, and private specialists quote their own fees.

FREQUENTLY ASKED QUESTIONS

Your questions answered

Why can you not do the surgery here?

Some procedures need hospital facilities, a general anaesthetic or a consultant's specialist training. Referring you is the safest choice.

Is a referral to a maxillofacial surgeon serious?

Not usually. Many referrals are for wisdom teeth or minor procedures. The specialist simply has the right training and facilities.

NHS or private?

We can refer to either. NHS referrals can have longer waits. Private referrals are often quicker and are paid for directly.

Will you still look after my teeth?

Yes. We coordinate with your surgeon and continue your routine and restorative care.

How long will I be off work?

It depends on the procedure. Wisdom tooth surgery usually needs a few days. Jaw surgery may need several weeks.

Can I be referred privately?

Yes. We can refer you to a private consultant if you prefer a shorter wait.

TRUSTED SOURCES

Further information

If you would like to read more before your appointment, these independent sources are a good place to start.

BAOMS: Patient procedures	Patient leaflets on oral and maxillofacial procedures.
BAOMS: Removal of impacted wisdom teeth	Options, risks and recovery.
