LUSSO DENTAL

Dental Examination and X-rays

Questions and Answers

LUSSO DENTAL · WEST BYFLEET

54 Station Approach, West Byfleet, Surrey KT14 6NE · lusso.dental

FREQUENTLY ASKED QUESTIONS

Dental Examination and X-rays: your questions answered

A thorough check of your teeth, gums, mouth and jaw, with photographs and X-rays where they are needed, so we can understand your oral health and plan your care with you.

FREQUENTLY ASKED QUESTIONS

Your questions answered

How long does the Dental Wellness Assessment take?

Allow about an hour. This gives us time to examine you carefully, take any photographs, scans or X-rays, and talk through what we find.

Do I need X-rays at every visit?

No. We only take X-rays when there is a clinical reason. How often depends on your risk of decay and gum disease, and we follow national guidance.

Are dental X-rays safe?

The dose is very small, similar to a few days of natural background radiation. Our equipment is tested regularly and we take as few X-rays as possible. Please tell us if you might be pregnant.

What is a CBCT scan?

It is a 3D radiograph that shows bone and teeth in detail. We use it only when flat X-rays would not give enough information, for example when planning implants.

What is the oral cancer screen?

We look at and feel your lips, tongue, cheeks, gums, palate and neck for any changes. It is quick and gentle, and most findings turn out to be harmless.

What does the gum probe measure?

It measures the small space between your gum and tooth. Deeper pockets and bleeding can be signs of gum disease.

How often should I have a check up?

NICE guidance says the interval should be based on your own risk. For adults this can be anywhere from three months to two years, and we will agree this with you.

Will I be told the costs before treatment?

Yes. You will receive a written plan with options and fees, and nothing is started without your agreement.

Can I bring someone with me?

Yes. You are welcome to bring a family member or friend for support.
